RE: Phone Conversation 3/12/82

Mr. Meiburger:

Attached is the Monitoring Plan as revised by our Hydrogeologist. Please review and return comments as soon as possible so that we may implement in the most expedient manner.

You had asked that all correspondence and/or the Monitoring Plan be forwarded to David Doyle with the EPA. Following our discussion, I talked to Mr. Doyle by phone and he indicated that he did not wish to receive the plan for their review. He did indicate that the EPA trusted the State Hydrogeologist and would accept the plan as approved by the State of Missouri.

It is my opinion that the work could be completed within 3 weeks of acceptance if there are no major changes.

Very truly yours,

James K. Dow
Director Technical Services
